Carlo San Buenaventura

About Me

A student of De La Salle University taking up Bachelor of Science in Computer Science major in Software Technology. I am a research assistant in the Center for Complexity and Emerging Technologies. I am also a student member in the Lasalle Computing Society. Motivated to utilize my knowledge and skills into developing practical applications and software that can be utilized in real world problems.

Experience

Taken up coding electives that prioritizes in teaching web development and designing UI/UX software. Attended workshop seminars on data mining, AI intelligence with deep learning architecture, and how to Figma.

Education

- **2021 - Present**
De La Salle University Bachelor of Science in Computer Science
Major in Software Technology
- **2010 - 2021**
Colegio San Agustin Makati Grade School to Senior High School

Strengths

- **Eager to Learn**
To pursue better opportunities, eager to develop my learning experience and explore the latest trends and innovations within the Computer Science. Interested in utilizing my learnings to create practical results.
- **Join in Collaborative Projects**
To seek collaborative opportunities and to learn from other learners and educators. Passionate about teamwork and eager to contribute to bigger projects, to foster my personal skills and knowledge through group collaboration and shared experiences that can be gained from a dynamic learning environment.
